Chem Service is Committed to Quality and to Our Customers

QUALITY RECOGNITION

Chem Service is recognized worldwide for the quality of the materials we provide. We have maintained ISO Guide 34, ISO 17025 accreditation and ISO 9001 certification. This stringent level of compliance applies to all of our internal design, development, production, distribution, and servicing of organic neat and synthetic reference materials which, we supply to our customers.

QUALITY STANDARDS

Chem Service provides Certificates of Analysis for our Standards Grade pesticide and metabolite standards in accordance with our internal policy requirements, and ISO Guide 34, ISO 17025, and ISO 9001 Quality System Requirements. Our neat chemical certification policy states that purity and identification must be established independently by performing three or more (when feasible) separate analyses before we certify any of our neat products. More than 95% of our neat Standards Grade materials have a certified purity of 98.0% or greater. Our pesticide standards, whether sold as neat products or as solutions, are certified for purity, identity, stability and are traceable by lot.

QUALITY ASSURANCE

Our internal quality program utilizes our company's years of experience in providing laboratories with highly purified materials for reference standards. Our experience has enabled us to identify "problem" materials that need special attention. For example, any potential peroxide former is tested frequently for peroxide formation to assure both purity and safety. Moreover, with our expertise in analyte compatibility, solubility, solution stability and analysis, Chem Service is uniquely qualified to provide your customized solutions and mixture standards.

QUALITY TESTING

Our on-going stability testing program for Standards Grade materials has additional benefits for our customers. We will supply neat standards only when they have a minimum of the shelf life remaining on their lot certification. If our stability testing shows the material has a purity or stability problem which affects its expiration date, we notify our customers and offer a replacement. Chem Service is committed to supplying quality products and services to our customers.

REPLACEMENT POLICY

Prior to the expiration date shown on the label and exclusive of any customer contamination, Chem Service will replace any product showing purity or concentration degradation. You must advise our Customer Service Department immediately to receive approval and instructions on either disposal or return of the product. Call 1-800-452-9994.

PRODUCT DOCUMENTATION

CERTIFICATE OF ANALYSIS (COA) - With the purchase of any Chem Service "Standards Grade" environmental, pesticide, organic chemicals, solutions or mixtures, a COA will be provided free of charge, where available. Please note that "Standards Grade" products assigned a purity of tech, will not receive a COA. COAs are not available for "Tech Grade" and "No Grade" products, but, where available, these products will come with an IR.

SAFETY DATA SHEETS (SDS) - English language SDS's are shipped in the box with the chemicals, exceeding OSHA's requirements. Additional copies, replacement copies, updated versions, SDS in advance of an order, or additional languages, can be downloaded from our website www.chemservice.com.

WARNING - READ YOUR SAFETY DATA SHEET BEFORE HANDLING OR USING ANY CHEMICALS.

NOTICE: All orders are provided subject to the Terms and Conditions of Sale which appear in the Chem Service Catalog, on the back of each Packaging List, and on our web site, www.chemservice.com. THERE ARE LIMITATIONS OF WARRANTIES IN THESE TERMS INCLUDING BUT NOT LIMITED TO THE CONDITION THAT THERE IS NO EXPRESS NOR IMPLIED WARRANTY OF MERCHANTABILITY NOR FITNESS FOR A PRACTICAL PURPOSE. There is also no warranty as to the analysis of the product nor the result that will be obtained from its use except as may be set forth in the Terms and Conditions of Sale.

It is often necessary to make a dilution of your chemicals in order to analyze them. Dilutions can be made in one of three manners: weight/weight, weight/volume and volume/volume. The most common of these is weight/volume. The units of measurement used are commonly expressed in parts per million (ppm), or parts per billion (ppb). For weight/weight, it is expressed as 1 ppm = 1 ug/g, for weight/volume, 1 ppm = 1 ug/mL, and for volume/volume, 1 ppm = 1 ul/L. Chem Service supplies most of their solutions at a concentration of 0.1 mg/mL (100ug/mL or 100ppm). In order to make a solution at a concentration of 100ppm, starting with a pure chemical, you need to know your final volume. Then if the material is a solid, the calculations are:

$$0.1 \text{ mg/mL (final concentration)} \times 100 \text{ mL (final volume)} = \text{weight of chemical needed (10mg)}$$

$$\underline{\text{FC}} \times \underline{\text{FV}} = \text{W}$$

If the material is a liquid, it is usually easier to convert to a liquid measurement (i.e. ul), for handling purposes. Therefore, the density is needed and the calculations are:

$$0.1 \text{ mg/mL (final conc.)} \times 100 \text{ mL (final volume)} = \text{volume (number of ul) of chemical needed density (mg/ul)}$$

$$\underline{\text{FC}} \times \underline{\text{FV}} = \frac{\text{V}}{\text{d}}$$

If you need to make a further dilution from a prepared solution, the calculations would be basically the same format. For example, to dilute 100ppm to 1ppm, take a 1mL aliquot of 0.1mg/mL (100ppm) solution, and dilute to your final volume (100mL).

$$0.1 \text{ mg/mL (initial concentration)} \times 1 \text{ mL (volume injected)} \times \frac{1000 \text{ ug (conversion factor)}}{100 \text{ mL (final volume)}} = 1 \text{ ug/mL (final concentration)}$$

$$\frac{\underline{\text{IC}} \times \underline{\text{VI}} \times \underline{\text{CF}}}{\text{FV}} = \text{FC}$$

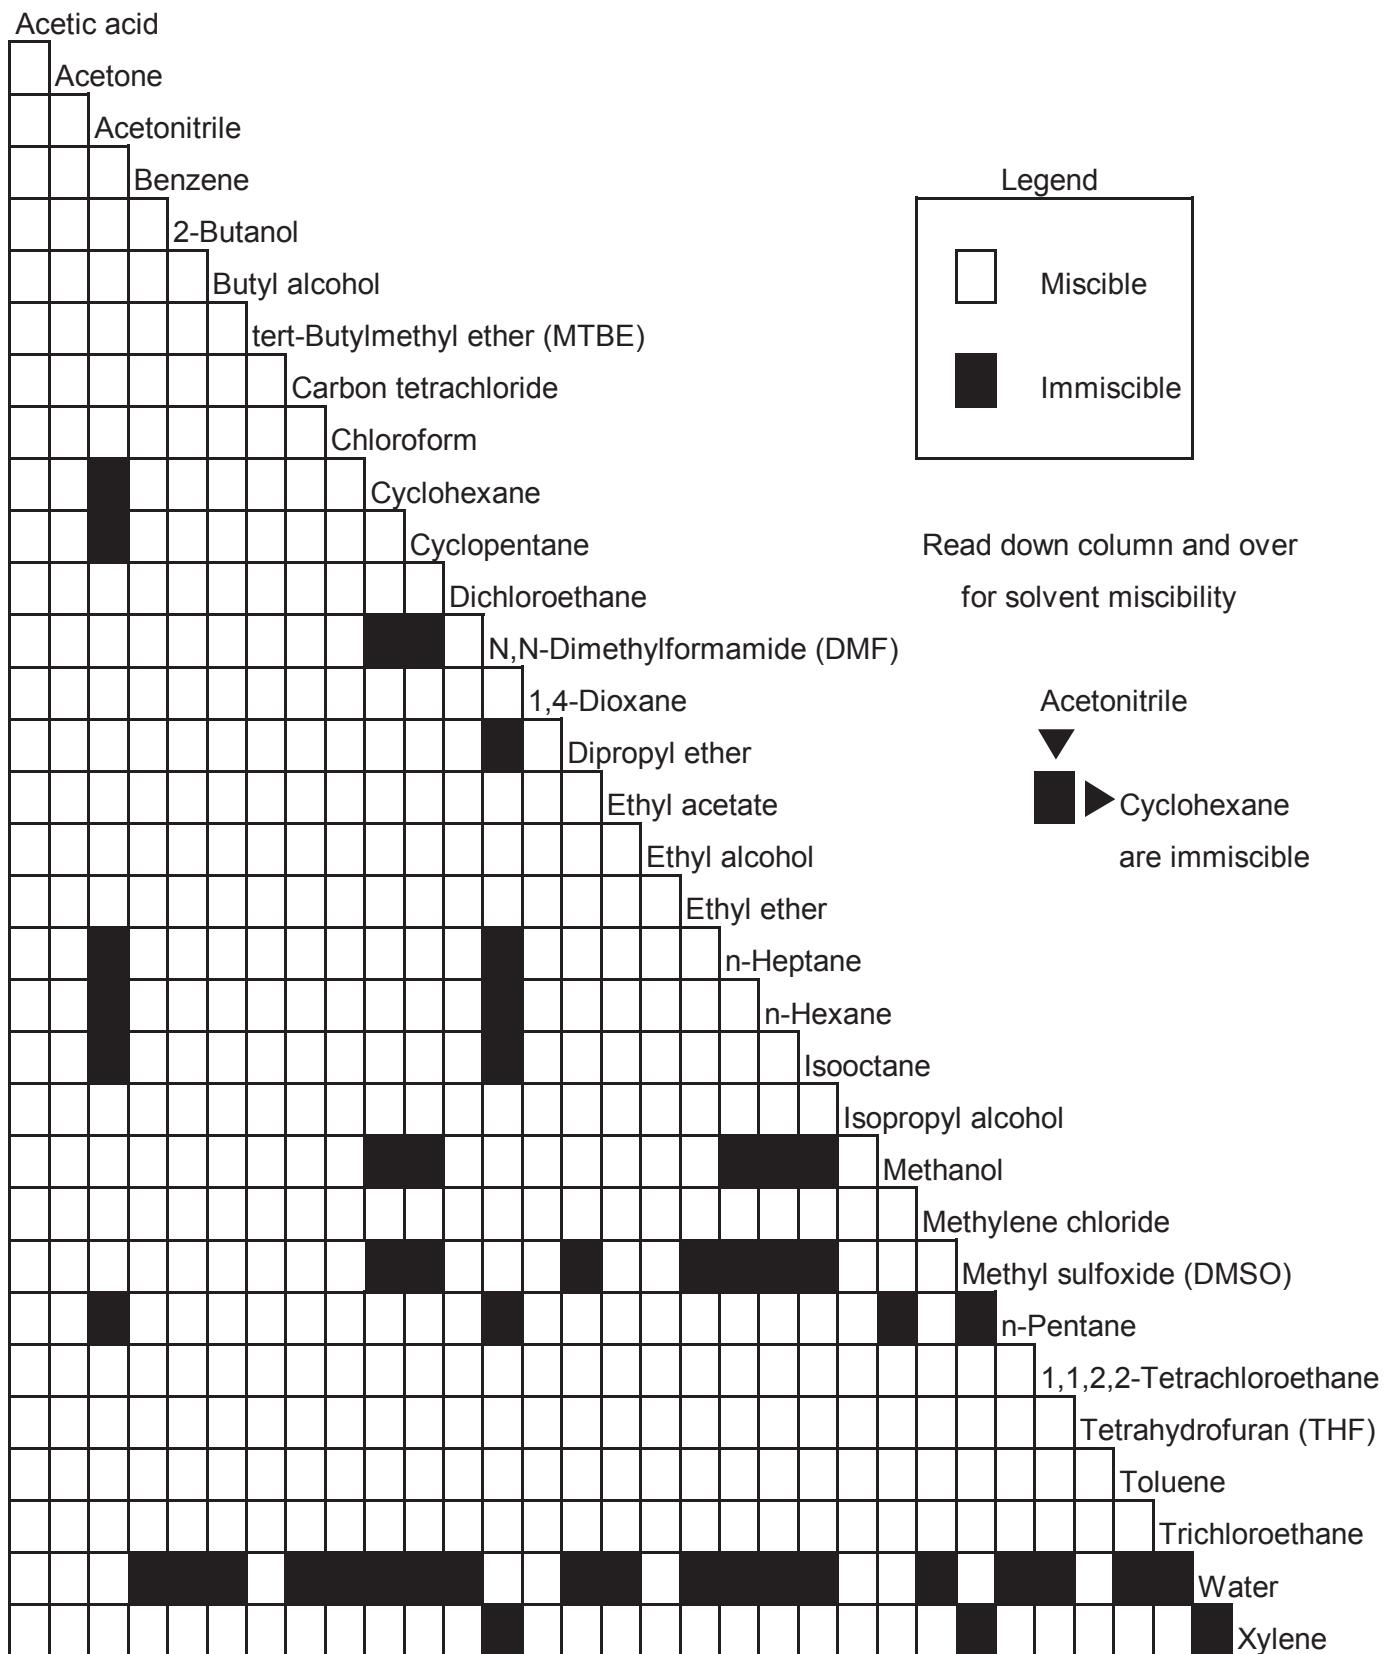

The above formula gives the final concentration for the solution. The formula to obtain the volume to inject in order to make the dilution for this final volume is:

$$\frac{\text{FC} \times \text{FV} \times \text{CF}}{\text{IC}} = \text{VI}$$

As one can see, these calculations can be manipulated to allow you to achieve any final volume or concentration you need. They can also be used to convert to other types of concentrations (weight/weight or volume/volume).

LEGEND

FC	= final concentration	IC	= initial concentration
FV	= final volume	VI	= volume injected
W	= weight needed	CF	= conversion factor
d	= density	V	= volume needed

j ↓

The chemical structure of Nitenpyram is shown. It features a central nitrogen atom bonded to two methyl groups (one labeled CH₃) and an ethylene group. The ethylene group is double-bonded to another nitrogen atom, which is also bonded to a methyl group and a 2-nitro-3-pyridinylmethyl group. This pyridinylmethyl group has a chlorine atom at position 6.

S-10992J1-5ML	100ug/ml in Hexane	5ML

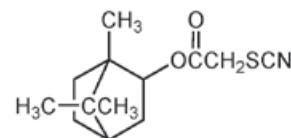

Isobornyl thiocyanoacetate
CAS#115-31-1

PS: Liquid

MF: C₁₃H₁₉NO₂S

MW: 253.37

MP: -48°C

Alternate Name: Thanite

Part Number	Matrix	Size
N-12232-250MG	Neat	250MG
S-12232A1-1ML	100ug/ml in Acetonitrile	1ML
S-12232U1-1ML	100ug/ml in Toluene	1ML

Dicofol
CAS#115-32-2

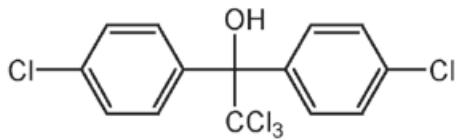

Chemical Name: 4,4-Dichloro-a-[trichloromethyl]benzhydrol

PS: Solid

MF: C₁₄H₉Cl₅O

MW: 370.47

MP: 77.5°C

Alternate Name: Kelthane (T.M.)

Part Number	Matrix	Size
N-12290-100MG	Neat	100MG

Phosphan
CAS#115-78-6

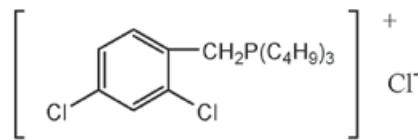

Chemical Name: Tributyl[2,4-dichlorobenzyl]phosphonium chloride

PS: Solid

MF: C₁₉H₃₂Cl₂P₂Cl

MW: 397.83

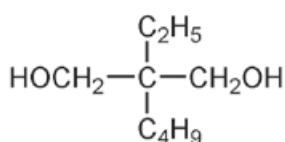

MP: 114°C

Part Number	Matrix	Size
N-13040-50MG	Neat	50MG
S-13040M1-1ML	100ug/ml in Methanol	1ML

2-Butyl-2-ethyl-1,3-propanediol
CAS#115-84-4

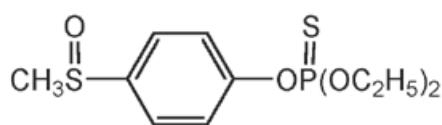

PS: Solid
MF: C₉H₂₀O₂
MW: 160.29
MP: 43.8°C

Alternate Name: 2-Ethyl-2-butyl-1,3-propanediol

Part Number	Matrix	Size
N-10306-1G	Neat	1G
S-10306M1-1ML	100ug/ml in Methanol	1ML

Fensulfothion
CAS#115-90-2
Chemical Name: O,O-Diethyl O-4-methylsulfinyl phenyl Phosphorothioate

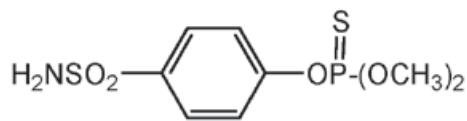

PS: Liquid
MF: C₁₁H₁₇O₄PS₂
MW: 308.36

Part Number	Matrix	Size
N-11963-100MG	Neat	100MG
S-11963M1-1ML	100ug/ml in Methanol	1ML

DOCUMENTATION (check one):

- Gravimetric Certification:** Guarantees the analytes in the custom standard to be made within \pm 5% of specifications.
- Quantitative Certification:** Includes verification of the concentration and peak identification.

All mixtures are prepared in accordance with our ISO 9001 & ISO 17025 registration. All analytes are certified $>/=$ 98% unless noted. Corrections are made to 100% purity.

Government/State/International Agency Methods

The Government/State/International Agency chemical standard section provides the necessary standards to run various published methods. These solutions are tested and certified according to a stringent quality criterion. They follow the guidelines for standard preparation for the indicated methods and conform to the high standards of our ISO certification program. We retain samples of the test solutions for on going stability studies.

First the purity and identification of each compound is established before the compound is utilized for a solution or mixture. For stock and custom solutions, corrections are made for any compound having a starting purity of less than 99%. Certificate of Analyses are provided on request. All mixtures and solutions are shipped with Safety Data Sheets. All of the solutions are traceable by a lot number.

Provided with each solution is a list of each of the individual compounds in the solution. Each compound is listed by their part number and the individual compounds can be purchased, as individual materials at 98+% purity, if so desired.

Standards

- EPA 500 Series Methods for Drinking Water (504 through 555).
- EPA 600 Series Methods for Wastewater Pollutants (608 through 680).
- EPA 1600 Series Methods for Wastewater Pollutants (1618 though 1660).
- EPA 8000 and Series Methods for Monitoring Organic Pollutants in Groundwater,
- Wastewater, and Solid Waste.
- EPA Contract Laboratory Program Standards for Target Compound List in Ground Water, Sediment, and Soil.
- International Standards for Canada (MISA), German DIN Standards, Europe Regulations, and ISO.

METHOD 504, 504.1 - EDB & DBCP

Method 504 is applicable for the determination of 1,2-Dibromoethane (EDB) and 1,2-Dibromo-3-chloropropane (DBCP) in finished drinking water, raw source water, or drinking water in any treatment stage by microextraction and gas chromatography.

Method 504.1 is applicable to the determination of 1,2-Dibromoethane (EDB), 1,2-Dibromo-3-chloropropane and 1,2,3-Trichloropropane (123TCP) in water by microextraction and gas chromatography in finished drinking water and groundwater:

EDB/DBCP MIXTURE**EPA METHOD 504, 8010B,8011**

1,2-Dibromo-3-chloropropane (DBCP)

METHOD 507 - NITROGEN/PHOSPHOROUS PESTICIDES

Method 507 is applicable to the determination of Nitrogen and Phosphorus containing pesticides in water by gas chromatography in ground water and finished drinking water.

NITROGEN/PHOSPHOROUS PESTICIDES MIXTURE**#1 - EPA METHOD 507, 525.2**

Ametryne	Cycloate
Disulfoton	Tributylphosphorotrithioite
Prometon	Fenamiphos
*Inhibited with Hydroquinone	
1000ug/mL in tert-Butyl methyl ether M-PM5071T4-1ML	(6 components) 1mL Ampule

NITROGEN/PHOSPHOROUS PESTICIDES MIXTURE**#2 - EPA METHOD 507, 525.2**

Atrazine	Diphenamid
Mevinphos	Prometryne
Propazine	Prophos
S-Ethyl dipropylthiocarbamate	Terbutryne
Triadimenon	
1000ug/mL in tert-Butyl methyl ether M-PM5072T4-1ML	(9 components) 1mL Ampule

NITROGEN/PHOSPHOROUS PESTICIDES MIXTURE**#3 - EPA METHOD 507, 525.2**

Butachlor	Carboxin
Diazinon	Metolachlor
Metribuzin	MGK 264 (TM)
Norflurazon	Terbufos
Vernolate	
1000ug/mL in tert-Butyl methyl ether M-PM5073T4-1ML	(9 components) 1mL Ampule

NITROGEN/PHOSPHOROUS PESTICIDES MIXTURE**#4 - EPA METHOD 507, 525.2**

Alachlor	Atraton
Bromacil	Butylate
Chlorpropham	Molinate
Propyzamide	Tetrachlorvinphos
Tricyclazole	Velpar
1000ug/mL in Acetone M-PM5074B4-1ML	(10 components) 1mL Ampule

NITROGEN/PHOSPHOROUS PESTICIDES MIXTURE**#5 - EPA METHOD 507, 525.2**

Dichlorvos
Fluridone
s-Propyl butylethylthiocarbamate
Tebuthiuron

1000ug/mL in tert-Butylmethyl ether
M-PM5075T4-1ML

Fenarimol
Napropamide
Simetryn
Terbacil

(8 components)
1mL Ampule

METHOD 508 - CHLORINATED PESTICIDES AND PCBs

Method 508 is applicable to the determination of chlorinated pesticides in ground water and finished drinking water by gas chromatography with an electron capture detector.

Method 508.1 is applicable for the determination of twenty-nine chlorinated pesticides, three herbicides and four organohalides in drinking water, ground water, and drinking water in any treatment stage using liquid-solid extraction and electron capture gas chromatography.

Method 508A is applicable for screening of Polychlorinated Biphenyls by gas chromatography and may be used for screening finished drinking water, raw source water, or drinking water in any treatment stage for polychlorinated biphenyls (PCBs).

ORGANOCHLORINE PESTICIDES MIXTURE #1**EPA METHOD 508, 508.1, 525.2, 608, 617, 625, 8080A/8081, 8250A/8270B, CLP**

Aldrin (TM)	b-Endosulfan	BHC (alpha isomer)	BHC (beta isomer)

METHOD 515.1/515/2/513.3 - CHLORINATED ACIDS

Method 515.1 is applicable to the determination of certain chlorinated acids in ground water and finished drinking water.

Method 515.2 is a gas chromatographic (GC) method applicable to the determination of chlorinated acids in ground water, and finished drinking water, using liquid-solid extraction, derivation and GC with an electron capture detector.

Method 515.3 is a gas chromatographic method applicable to the determination of chlorinated acids in drinking water, ground water, raw source water, and water at any intermediate stage by liquid-liquid extraction, derivatization and gas chromatography with electron capture detection.

CHLORINATED ACIDS MIXTURE**EPA METHOD 515.1**

100ug/mL	Acifluorfen	200ug/mL	Bentazon	100ug/mL	Chloramben
200ug/mL	2,4-D	800ug/mL	2,4-DB	1300ug/mL	Dalapon

METHOD 614,614.1 - ORGANOPHOSPHOROUS PESTICIDES

Method 614 is applicable for determination of organophosphorus pesticides in industrial and municipal wastewater by gas chromatography. Method 614 represents a revision of a previously promulgated U.S. EPA method for organophosphorus pesticides. This method has been in widespread use since its promulgation, and represents the state of the art for the analysis of organophosphorus pesticides.

Method 614.1 is applicable for determination of organophosphorus pesticides in municipal and industrial wastewater by gas chromatography with measurement accomplished by a nitrogen/ phosphorous specific detector.

METHOD 629 - BLADEX (CYANAZINE)

Method 629 is applicable to the determination of Cyanazine in municipal and industrial wastewater. It is a high-performance liquid chromatographic (HPLC) method. HPLC conditions are described which allow for separation and measurement of cyanazine in the extract by HPLC with a UV detector. The method provides for an optional Florisil column cleanup procedure to aid in the elimination or reduction of interferences.

BLADEX (CYANAZINE) STANDARDS**EPA METHOD 629**

N-11327-250MG	Bladex
S-11327A1-1ML	100ug/ml in Acetonitrile
S-11327T4-5ML	1000ug/ml in tert-butylmethyl ether

METHOD 630/630.1 - DITHIOCARBAMATE PESTICIDES

Method 630 is applicable to the determination of dithiocarbamate pesticides. It is the colorimetric method for the determination of the dithiocarbamate pesticides compounds in industrial and municipal discharges as provided under 40 CFR 136.1. (Note that this method fails to distinguish between the individual dithiocarbamates, for all results are reported as Ziram). Carbon disulfide is an interferant.

Method 630.1 is applicable the determination of the dithiocarbamate pesticide compounds listed in municipal and industrial discharges as provided under 40 CFR 136.1, by total residue gas chromatography. This method includes procedures to purge CS₂ from the wastewater prior to acid hydrolysis of the sample. A vortex evaporator is used for CS₂ removal.

DITHIOCARBAMATE PESTICIDES CALIBRATION STANDARDS**EPA METHOD 630/630.1**

N-13761-250MG	Ziram
----------------------	-------

INTERFERENCE CHECK STANDARDS**EPA METHOD 630.1**

S-11406M1-1ML	100ug/ml in Methanol
S-11406M1-5ML	100ug/ml in Methanol

METHOD 631 - BENOMYL AND CARBENDAZIM

Method 631 is applicable to the determination of Benomyl and Carbendazim by high performance liquid chromatography (HPLC) in industrial and municipal discharges as provided under 40 CFR 136.1. Note that Benomyl is hydrolyzed to carbendazim, and both compounds are measured and reported as carbendazim.

BENOMYL STANDARDS**EPA METHOD 631**

N-11138-100MG	Benomyl
----------------------	---------

CARBENDAZIM STANDARDS**EPA METHOD 631**

N-11404-100MG	Carbendazim
S-11404M1-1ML	100ug/ml in Methanol
S-11404M1-5ML	100ug/ml in Methanol

METHOD 632 - CARBAMATE UREA PESTICIDES

Method 632 is applicable to the determination of carbamate and urea pesticides in industrial and municipal wastewater by high performance liquid chromatography (HPLC). Note that this method provides for an optional Florisil column cleanup procedure, to aid in the elimination or reduction of interferences, which may be encountered (caused by contaminants in solvents, reagents, glassware and other sample processing apparatus that lead to discrete artifacts or elevated baselines in liquid chromatograms).

CARBAMATE & UREA PESTICIDES MIXTURE**EPA METHOD 632**

Aminocarb	Fenuron	Neburon	Barban	Fluometuron	Oxamyl
Chlorpropham	Linuron	Propoxur	Carbaryl	Methiocarb	Siduron
Carbofuran	Methomyl	Diuron	Monuron	Swep	Propham

N-11968-50MG	Fenuron TCA
N-12498-100MG	Monuron TCA

METHOD 634 - THIOCARBAMATE PESTICIDES

Method 634 is applicable to the determination of thiocarbamate pesticides in industrial and municipal wastewaters. Sample extraction and concentration steps in this method are similar to other 600 Series Methods. The separation and measurement of the compounds in the extract is by alkali flame detector (AFD) gas chromatography. To aid in the elimination of interferences an optional silica gel column cleanup procedure is provided. This method describes analytical conditions for a second gas chromatographic column that can be used to confirm measurements made with the primary column, as well as the gas chromatograph/mass spectrometer (GC/MS) criteria appropriate for the qualitative confirmation of these compound.

METHOD 8150B - CHLORINATED HERBICIDES

Method 8150 is applicable for the determination of chlorinated herbicides. Method 8150 provides extraction, esterification, and GC conditions for the analysis. When Method 8150 is used to analyze unfamiliar samples, compound identifications should be supported by at least one additional qualitative technique. This method describes analytical conditions for a second gas chromatographic column that can be used to confirm measurements made with the primary column.

Method 8150A is applicable for the determination of chlorinated herbicides by gas chromatography. It provides GC/MS criteria for qualitative confirmation of compound identifications.

Method 8150B is applicable for the determination of chlorinated herbicides by gas chromatography. The sensitivity of the 8150 methods usually depends on the level of interferences rather than on the instrumental limitations

METHOD 8250A/8270B - SEMIVOLATILE ORGANICS

Method 8250A is applicable for determination of semivolatile organic compounds in extracts prepared from all types of solid waste matrices, soils, and ground water. Direct injection of a sample may be used in limited applications. Method 8250A can be used to quantify most neutral, acidic, and basic organic compounds that are soluble in methylene chloride, and capable of being eluted without derivatization as sharp peaks, from a gas chromatographic packed column by GC/MS.

Method 8270B is applicable for determination of semivolatile organic compounds by gas chromatography/mass spectrometry (GC/MS) by capillary column technique. This method is used to determine the concentration of semivolatile organic compounds in extracts prepared from all types of solid waste matrices, soils, and ground water. Direct injection of a sample may be used in limited applications. Prior to using this method, the samples should be prepared for chromatography using the appropriate sample preparation and cleanup methods. This method describes chromatographic conditions that will allow for the separation of the compounds in the extract, and for their qualitative and quantitative analysis, by mass spectrometry.

METHOD 8318 - n-METHYLCARBAMATES

Method 8318 is applicable for determination of n-Methylcarbamates by high performance liquid chromatography (HPLC). N-Methylcarbamates are extracted from aqueous samples with Methylene chloride, from soils, oily solid waste, and oils with acetonitrile. After separation, the target analytes are hydrolyzed and derivatized post-column, then quantified fluorometrically.

METHOD 8321/8321A/8321B - ORGANOPHOSPHOROUS

Method 8321 is applicable to the determination, by high performance liquid chromatography (HPLC), coupled with either thermospray-mass spectrometry (TSP-MS), and/or ultraviolet (UV), of disperse azo dyes, organophosphorus compounds, and Tris-(2,3-dibromopropyl) phosphate, in wastewater, ground water, sludge, soil/sediment matrices, and chlorinated phenoxyacid compounds, and their esters. Quantitative analysis is performed by TSP/MS, using an external standard approach. Sample extracts can be analyzed by direct injection into the thermospray or onto a liquid chromatographic-thermospray interface. Note that detection is achieved both by negative ionization (discharge electrode) and positive ionization, with a single quadrupole mass spectrometer. Since this method is based on an HPLC technique, the use of ultraviolet (UV) detection is optional for routine samples.

METHOD CLP - SEMIVOLATILES

The U.S. EPA Contract Laboratory Program (CLP) was developed under the authority of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and under the 1986 Superfund Amendments and Reauthorization Act (SARA). The analytical methods were designed for identifying and quantifying the organic compounds on the EPA's Target Compound List (TLC) in ground water, sediment, and soil from abandoned hazardous waste sites.

The following Chem Service reference standards are prepared for analyzing the volatile compounds, semi-volatile compounds, as well as pesticide compounds included on the EPA Target Compound List. Chem Service is committed to providing you with the highest quality reference materials for the CLP methods, as well as to furnishing you with high quality standards documentation.

ISO 6468 - ORANOCHLORINE INSECTICIDES, PCB'S AND CHLOROBENZENE

ISO 6468 is for determining certain organochlorine insecticides, polychlorinated biphenyls (PCBs) and chlorobenzenes (except the mono- and dichlorobenzenes) in drinking water, ground water, surface waters and waste waters. The method is applicable to samples containing up to 0,05 g/l of suspended solids.

DIN 38407 - GERMAN STANDARD METHODS

Din 38407 Glyphosate and AMPA MIX (Part 22) is a German standard method applicable for the identification and measurement of glyphosate and aminomethyl phosphic acid (AMPA) in water, waste water, and sludge by post-column derivation using high performance liquid chromatography (HPLC) with fluorescence detection.

DIN 38407 Pesticide Free Acid Mixture & Methyl Esters Mixture (Part 14) is a German standard method applicable for the identification and measurement of phenoxyalkanecarboxylic acids in water, waste water and sludge by solid-liquid extraction and derivation using gas chromatography coupled with mass spectrometry (GC/MS).

DIN 38407 Pesticide Mixture (Part 2) is a German standard method application for the identification and measurement of low-volatility halogenated hydrocarbons in water, waste water and sludge using gas chromatography (GC).

DIN 38407 Pesticide Mixture (Part 11) is a German standard method application for the identification and measurement of select organic plant protecting agents in water, waste water and sludge.

CANNABIS STANDARDS

Cannabis Standards are a general purpose method applicable for the identification and measurement of select pesticide residue in cannabis products in Colorado, Nevada, and Oregon, respectively. Note: Piperonyl butoxide and pyrethrin may be used in cannabis. Due to misuse, they have been incorporated into these mixtures.

COLORADO PESTICIDE STANDARD MIXTURE 1

Abamectin	Azoxystrobin	Bitenazate	Etoxazole
Imazalil	Imidacloprid	Malathion	Myclobutanil
Permethrin	Spinosad	Spiromesifen	Spirotetramat
Tebuconazole			
1000ug/mL in Acetonitrile	(13 components) 1mL Ampule

Product Documentation

SAFETY DATA SHEETS (SDS) - Federal Regulation (OSHA) 29 CFR 1910.1200 and other applicable state laws require us to furnish a Safety Data Sheet with the initial delivery of each hazardous chemical. However, as a service to you, we supply a SDS with every order. Where hazards are known, appropriate warnings are noted on the label. Always READ your Safety Data Sheet before handling chemicals.

CERTIFICATE OF YOUR ANALYSIS (COA) - With the purchase of any Chem Service "Standards Grade" environmental, pesticide, organic chemicals, solutions or mixtures, a COA will be provided free of charge, where available. Please note that "Standards Grade" products assigned a purity of tech, will not receive a COA. COAs are not available for "Tech Grade" and "No Grade" products, but, where available, these products will come with an IR.

SAFETY DATA SHEETS (SDS) - English language SDS's are shipped in the box with the chemicals, exceeding OSHA's requirements. Additional copies, replacement copies, updated versions, SDS in advance of an order, or additional languages, can be downloaded from our website www.chemservice.com.

Return Policy

Goods may not be returned for credit except with Seller's written permission and then only in strict compliance with Seller's return shipment instructions, since most of Seller's products are classified as Hazardous Materials (HazMats) by the U.S. D.O.T. or Dangerous Goods under the applicable international conventions (ICAO/IATA or IMDG). It is imperative that Buyer not return anything without specific instructions from Seller to prevent Buyer's violation of applicable laws and regulations. Buyer will at times handle and dispose of goods in accordance with Seller's instructions, the current Safety Data Sheet, and all applicable law and government regulations.

Buyer has 15 days to notify Seller of any damage or shortage, and 30 days to notify Seller of item ordered incorrectly. If a return is necessary, a return authorization number (RO#) must be given by the Customer Service Manager, and the item(s) must be returned within 10 days after issuance of the RO#.

Unauthorized returns may result in an assessment of a charge to the Buyer, equal to Chem Service's actual expense in handling the unauthorized return. In addition, Buyer may incur regulatory or legal sanctions for illegal shipments and will be held liable by Chem Service for any expenses, including legal fees, fines, or other penalties incurred by Chem Service as a result of Buyer's unauthorized shipment.

The restocking fee is 30% or a \$10.00 minimum and is decided upon by Seller.

Grade Information

"STANDARDS GRADE" (S.G.) - Material has been analyzed and assigned a certified purity and valid expiration date. The analysis is traceable by lot number. Minimum purity requirement is 98% for neat materials, except in a few cases where it is not physically or economically possible (a few of these items may be assigned a purity of "Tech" due to the nature of the compound - not to be confused with "Technical Grade"). Acceptable as a standard by various government agencies.

"NO Grade" (S.G.) - Material is 95% or less. Neither an analysis or certified purity is available. However, many "No Grade" products will be provided with an Infrared Spectrum (IR). When an adequate purity can be assigned to "No Grade" material, they will be changed to "Standard Grade" and will come with the appropriate documentation.

Products furnished by Chem Service, Incorporated are **FOR LABORATORY USE ONLY!** Our products may **NOT BE USED** as drugs, cosmetics, agricultural or pesticidal products, food additives or as household chemicals.

WARNING - Always read your Safety Data Sheet before handling or using any chemicals.

General Information

Purity Minimums - Chem Service's policy is to provide all neat Standards Grade materials that meet the 98% purity minimum. There will be a few exceptions for a small number of compounds where the chemical stability or the nature of the compound makes this purity unobtainable or impractical, due to chemical stability, isomer separation, purification, synthesis, cost or other factors, but nearly all Standards Grade materials will ship as 98% or higher purity.

Certified Neat Products and Certified Custom Solutions - Our certified in-house neat chemicals are the basis of our quality custom solutions. We can tailor a product to meet your specification, certification, budget and delivery requirements. Use our Custom Solution & Mixture Request form on page 8.

Prices - Are Subject to Change Without Notice.

NOTICE: THIS LANGUAGE FORMS YOUR CONTRACT WITH CHEM SERVICE, INC.

1. **ACCEPTANCE GOVERNING PROVISIONS** - Buyer places any order subject to the terms and conditions herein contained, whether additional to or different from those contained in Buyer's purchase order or any other form or document heretofore or hereafter supplied by Buyer to Seller. Seller's failure to object to provisions contained in any purchase order or any other form or document from Buyer shall not be construed as a waiver of these terms and conditions and not an acceptance of any such provision. If Buyer places an order from Seller's catalogue or catalogue supplement, Buyer is deemed to have assented to these terms. If Buyer places an order without reference to the catalogue, Buyer is deemed to have assented to these terms within ten (10) days of receipt of Seller's invoice or delivery of all or any part of the order, whichever is first, unless Seller receives written notice of any objection within 10 days after Buyer's receipt of this form. This contract and the terms and conditions shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania.
2. **CHANGES, CANCELLATION** - No change by Buyer of any term or condition of this contract or any of Seller's rights or remedies hereunder shall be binding on Seller, nor shall the order thereby acknowledged be cancelled or changed by Buyer, unless Seller shall expressly consent thereto in writing by Seller's authorized officer. There are no representations, agreements, promises or understandings between Buyer and Seller that are not expressed herein.
3. **DELIVERY, CLAIMS, DELAYS, RETURNS** - Unless specified differently in writing, all sales are F.O.B. Seller's shipping point. Delivery of goods to the carrier at Seller's plant or other loading point shall constitute delivery to Buyer and, regardless of shipping terms, all risk of loss or damage in transit shall be borne by Buyer. Seller reserves the right to make delivery in installments, all such installments to be separately invoiced and paid for when due per invoice, without regard to subsequent deliveries. Delay in delivery of any installment shall not relieve Buyer of its obligation to accept remaining deliveries.

Immediately upon Buyer's receipt of any goods shipped hereunder, Buyer shall inspect the same and shall notify Seller, in writing, of any claims for shortages, defects or damages and shall hold the goods for Seller's written instructions concerning disposition. If Buyer shall fail to so notify Seller, within five days after the goods have been received by Buyer, such goods shall conclusively be deemed to conform to the terms and conditions thereof.

Seller shall not be liable for any loss, damage or penalty as a result of any delay in or failure to manufacture, deliver or otherwise perform hereunder due to any cause beyond Seller's reasonable control, including, without limitation, unsuccessful reactions, act of Buyer, embargo or other governmental act, regulation or request, including but not limited to reinterpretation of any regulation, or change in enforcement or policy, affecting the conduct of Seller's business, fire, explosion, accident, theft, vandalism, riot, acts of war, strikes or other labor difficulties, lightning, flood, windstorm or other act of God, delay in transportation or inability to obtain necessary labor, fuel, materials, supplies or power at current prices.

4. **ALLOCATION OF GOODS** - If Seller is unable for any reason to supply the total demands for goods specified in Buyer's order, Seller may allocate its available supply among any or all buyers on such basis as Seller may deem fair and practical, without liability for any failure of performance which may result therefrom.
5. **PAYMENT** - Terms of sale are net 30 days of date of invoice, unless otherwise stated. Materials will be billed at the price in effect at the time shipment is made. If the financial condition of Buyer does not justify the terms of payment specified, Seller may demand full or partial payment in advance before proceeding with the contract. If Buyer defaults in any payment when due, under this or any other order, Seller at its option without prejudice to its other lawful remedies, may defer delivery or cancel this contract.
6. **TAXES AND OTHER CHARGES** - Any use tax, sales tax, excise tax, duty, custom, inspection or testing fee, or any other tax, fee or charge of any nature whatsoever imposed by any governmental authority, on or measured by the transaction between Seller and Buyer shall be paid by Buyer in addition to price quoted or invoiced. In the event Seller is required to pay any such tax, fee or charge, Buyer shall reimburse Seller therefore or, in lieu of such payment, Buyer shall provide Seller at the time the order is submitted an exemption certificate or other document acceptable to the authority imposing the tax, fee or charge.
7. **WARRANTIES** - Unless specified differently in writing, Seller warrants that its products shall conform to the description of such products as provided in the Seller's catalog. THIS WARRANTY IS EXCLUSIVE, AND SELLER MAKES NO OTHER WARRANTY, EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURCHASE. Seller's warranties made in connection with this sale shall not be effective if Seller has determined in its sole discretion, that Buyer has misused the products in any manner or has failed to use the products in accordance with instructions, if any, furnished by the Seller and/or in accordance with any Material Safety Data Sheet.

Seller's sole and exclusive liability and Buyer's exclusive remedy with respect to products proved to Seller's satisfaction to be defective or nonconforming shall be the replacement of such product without charge or refund of the purchase price, at Seller's sole discretion, upon the disposition of such products in accordance with Seller's instructions. SELLER SHALL NOT BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL OR CONTINGENT DAMAGES.

8. **COMPLIANCE WITH LAWS, REGULATIONS** - Seller certifies that to the best of its knowledge its products are produced in compliance with applicable requirements of the Fair Labor Standards Act, as amended, and the Occupational Safety and Health Standards Act of 1970 and regulations, rules and orders issued pursuant thereto. Seller also certifies to the best of its knowledge, it is in compliance with Executive Order 11246 and its regulations, rules and orders issued pursuant thereto, that it does not discriminate against any employee or prospective employee because of race, creed, color, national origin, sex, age or handicap, nor permit discrimination in any form nor maintain segregated facilities for its employees; that it actively pursues employment of minorities, females, handicapped, disabled veterans and veterans of the Vietnam era; and that it uses its best efforts to award contracts to and place purchase orders with minority business enterprises and with labor surplus area concerns and small business concerns.

NOTICE: THIS LANGUAGE FORMS YOUR CONTRACT WITH CHEM SERVICE, INC. (cont'd)

- 9. BUYER'S USE OF PRODUCTS** - Seller's products are intended only for laboratory use and, unless otherwise indicated on Seller's invoice, other writings, or on product labels, are not to be used for other purposes, including but not limited to as, or a component in a food, drug, medical device (including in vitro diagnostic reagents) or cosmetics as defined in the Federal Food, Drug and Cosmetic Act, as amended, nor as a pesticide unless otherwise stated by Seller in writing furnished to Buyer. Buyer expressly represents and warrants to Seller that Buyer will properly test, use, manufacture and market any products purchased from Seller and any final articles made from them in accordance with the practices of a reasonable person who is an expert in the field and in strict compliance with all applicable federal and state food, drug, device and cosmetic and other relevant laws and regulations, now and hereinafter enacted. Buyer further warrants to Seller that any final articles manufactured from Seller's products shall not be adulterated or misbranded within the meaning of the Federal Food, Drug, and Cosmetic Act and shall not be articles which may not be introduced into interstate commerce. Buyer agrees to comply with instructions, if any, furnished by Seller relating to the use of the products and not misuse the products in any manner.

Buyer acknowledges (1) that Seller's products are small quantities solely for purposes of scientific experimentation, or analysis, or chemical research and intended only for laboratory use by technically qualified individuals, (2) that the products will be used only for such purposes, and by such qualified individuals and, (3) that some of Seller's products may not be on the Inventory of Existing Chemical Substances defined pursuant to the Toxic Substances Control Act (TSCA). Seller assumes no responsibility to assure that products purchased hereunder may be used in a commercial application under the provisions of TSCA and regulations promulgated under TSCA. Seller will provide a Material Safety Data Sheet (MSDS) to Buyer which will inform persons using the product of the health risks which Seller has reason to believe may be associated with the product. Buyer agrees that it will inform its employees (1) that some of Seller's products may not be on the Inventory of Existing Chemical Substances defined pursuant to the Toxic Substances Control Act (TSCA) and that (2) a current MSDS is available to any and all employees or other personnel working, handling and/or in contact with or proximity to Seller's products for which an MSDS is required. Buyer agrees that it will comply with all provisions of 29 C.F.R. Part 1910. If the products purchased from Seller are to be repackaged, relabeled, or used as starting material or components of other products, Buyer will verify Seller's assay of the product and accept its obligations to conform to the requirements of TSCA.

Buyer agrees that it has the responsibility to verify the hazards and to conduct any further research necessary to learn the hazards involved in using products purchased from Seller. Buyer also has the duty to warn Buyer's employees, customers and any auxiliary personnel (such as freight handlers, etc.) of any risks involved in using or handling the products.

- 10. INDEMNIFICATION** - Buyer agrees to indemnify and hold Seller harmless from and against any and all losses, damages and expenses, (including attorney's fees and other costs of defending any action) that Seller may sustain or incur as a result of any claim for damages for personal injury, death, damage to property or other injury by reason of any claim of negligence, breach of express or implied warranty, strict liability in tort or other theory of law made by Buyer, its officers, agents or employees, its successors and assigns, and its customers, whether direct or indirect, in connection with the use of Seller's products, or by reason of Buyer's failure to perform the obligations herein contained. This obligation of indemnification shall exist notwithstanding any ordinary negligence or fault by the Seller.

In the event of any claim against Seller by an employee of Buyer or an employee of a subcontractor of Buyer or other person who might or would benefit from an immunity from making indemnity, contained in any state or federal workers' compensation law or similar law, the Buyer specifically waives the immunity and agrees to indemnify Seller and hold Seller harmless from any claim for any type of injury or damages.

Buyer shall notify Seller within 15 days of Buyer's receipt of knowledge of any claim involving Seller's products resulting in personal injury, death, or damage to property and Buyer shall fully cooperate with Seller in the investigation and determination of the cause of such accident and shall make available to Seller all statements, reports and tests made by Buyer or made available to Buyer by others. The furnishing of such information to Seller and any investigation by Seller shall not constitute an assumption of any liability by Seller.

- 11. PATENT DISCLAIMER** - Seller does not warrant that the use or sale of the products delivered hereunder will not infringe the claims of any United States or other patents covering the product itself or the use thereof in combination with other products or in the operation of any process.
- 12. RETURNS AND DISPOSAL** - Goods may not be returned for credit except with Seller's written permission and then only in strict compliance with Seller's return shipment instructions. Buyer agrees that it will, at all times, handle and dispose of goods in accordance with Seller's instructions, the current Material Safety Data Sheet, and all applicable law and government regulations.
- 13. TECHNICAL ASSISTANCE** - At Buyer's request, Seller may furnish technical assistance and information with respect to Seller's products. Unless otherwise agreed, all such technical assistance and information will be provided gratis, and Buyer assumes sole responsibility for results obtained in reliance thereon. SELLER MAKES NO WARRANTIES OF ANY KIND OR NATURE WITH RESPECT TO TECHNICAL ASSISTANCE OR INFORMATION PROVIDED BY IT. ANY SUGGESTIONS BY SELLER REGARDING USE, APPLICATION OR SUITABILITY OF THE PRODUCTS SHALL NOT BE CONSTRUED A WARRANTY UNLESS EXPRESSLY DESIGNATED AS SUCH, IN WRITING, SIGNED BY SELLER.

Fenamiphos sulfoxide Solution	MET-11947AM1-1ML	31972-43-7	100 µg/mL in Methanol	1mL
Fenothiocarb	N-13962-25MG	62850-32-2	Neat	25mg
Fenpropimorph Solution	S-11961U1-1ML	67564-91-1	100 µg/mL in Toluene	1mL
Fensulfotion oxon	MET-11963D-50MG	6552-21-2	Neat	50mg
Fensulfotion oxon sulfone	MET-11963C-50MG	6132-17-8	Neat	50mg
Fenthion-O-analog	MET-11964C-10MG	6552-12-1	Neat	10mg
Fenthion-oxon-sulfoxide	MET-11964F-25MG	6552-13-2	Neat	25mg
Florasulam	N-13922-50MG	145701-23-1	Neat	50mg
Flucycloxuron	N-14217-25MG	113036-88-7	Neat	25mg
Fluensulfone Solution	S-14084A1-1ML	318290-98-1	100 µg/mL in Acetonitrile	1mL
Flufenazine	N-14086-25MG	162320-67-4	Neat	25mg
Flumiclorac-pentyl	N-11990-100MG	87546-18-7	Neat	100mg
5-Fluoro-1,3-dimethyl-1H-pyrazole-4-carboxylic acid	MET-14035B-10MG	1027991-91-8	Neat	10mg
Flupyrimin	N-14199-100MG	1689566-03-7	Neat	100mg
Fluquinconazole Solution	S-13295A1-1ML	136426-54-5	100 µg/mL in Acetonitrile	1mL
Flurtamone-N-methyl	MET-13981A-50MG	96525-23-4	Neat	50mg
Fosamine Ammonium	N-12018-250MG	25954-13-6	Neat	250mg
Fulvestrant	N-14021-25MG	129453-61-8	Neat	25mg
Fulvestrant Solution	S-14021M1-1ML	129453-61-8	100 µg/mL in Methanol	1mL

Description	Catalog Number	CAS Number	Matrix	Size
Furathiocarb Solution	S-12974M1-1ML	65907-30-4	100 µg/mL in Methanol	1mL
(+)-Geosmin	N-12107-10MG	16423-19-1	Neat	10mg
Geosmin Solution	S-12107M1-1ML	16423-19-1	100 µg/mL In Methanol	1mL
Glyphosate Solution	S-12133F4-1ML		1,000 µg/mL in Water	1mL
1-Hydroxychlordene epoxide	MET-12942A-10MG	24009-06-1	Neat	10mg
6-Hydroxynicotinic acid	N-14924-100MG		Neat	100mg
5-Hydroxythiabendazole	MET-13560A-10MG	948-71-0	Neat	10mg
5-Hydroxythiabendazole Solution	MET-13560AM0-1ML	948-71-0	50 µg/mL In Methanol	1mL
Indoxacarb Solution	S-12895A1-1ML	144171-61-9	100 µg/mL in Acetonitrile	1mL
Iodoenphos Solution	S-12216B1-1ML	18181-70-9	100 µg/mL In Acetone	1mL
Ipcconazole Solution	S-13080A1-1ML	125225-28-7	100 µg/mL in Acetonitrile	1mL
Ipfentrifluconazole	N-14219-25MG	1417782-08-1	Neat	25mg
ISO 10695 Pesticide Mixture	M-ISO10695PS1B10-1ML		10 µg/mL in Acetone	1mL
Isofenphos oxon	MET-12249D-10MG	31120-85-1	Neat	10mg
Isofenphos-des-N-isopropyl Solution	MET-12249CJ1-1ML	25205-08-7	100 µg/mL in Hexane	1mL
2-Isopropylamino-4,6-dichloro-s-triazine	N-12983-10MG	10/4/3703	Neat	100mg
Isotanil	N-14201-100MG	224049-04-1	Neat	100mg
Isotanil Solution	S-14201J1-1ML	224049-04-1	100 µg/mL In Hexane	1mL
1-Keto-2,3-epoxidechlordane	MET-12942B-10MG	40488-31-1	Neat	10mg
Kresoxim-methyl	N-12296-100MG	143390-89-0	Neat	100mg
Lindane (BHC gamma isomer) Solution	S-12319U1-1ML	58-89-9	100 µg/mL in Toluene	1mL
Massachusetts Pesticide Standard Mix 1 for Cannabis Testing	M-MAPESTMIX1A1-1ML		100 µg/mL in Acetonitrile	1mL
Matrine	N-14141-100MG	519-02-8	Neat	100mg
MCPA-2-ethylhexyl ester	N-13828-100MG	29450-45-1	Neat	100mg
Mecarban	N-12359-100MG	2595-54-2	Neat	100mg
Mecoprop-2,4,4-trimethylpentyl ester	N-12362-100MG	217487-13-3	Neat	100mg
Mefentrifluconazole	N-14220-25MG	1417782-03-6	Neat	25mg
Mesityl oxide	N-12374-1G	141-79-7	Neat	1g
Methfuroxam	N-14210-100MG	28730-17-8	Neat	100mg
Methfuroxam Solution	S-14210A1-1ML	28/30-17-8	100 µg/mL in Acetonitrile	1mL
Methoxyphenone	N-14225-100MG	41295-28-7	Neat	100mg
Methyl chloroacetate	N-12422-250MG	96-34-4	Neat	250mg
3-Methyl-4-(methylsulfinyl)-Phenol	MET-11964H-100MG	14143-28-3	Neat	100mg
2-Methyl-4,6-dinitroanisole	N-12980-10MG	29027-13-2	Neat	10mg
Metofluthrin	N-14207-10MG	240494-70-6	Neat	10mg
(Z)-Metominostrobin	N-14195-10MG	133408-51-2	Neat	10mg
(Z)-Metominostrobin Solution	S-14195A10-1ML	133408-51-2	10 µg/mL in Acetonitrile	1mL
Metribozuron Isomer	N-13273-100MG	110109-24-5	Neat	100mg
Metsulfovax	N-14190-100MG	21452-18-6	Neat	100mg
Mifepristone	N-14022-100MG	84371-65-3	Neat	100mg
Mifepristone Solution	S-14022A1-1ML	84371-65-3	100 µg/mL in Acetonitrile	1mL
Monosutap	N-14146-100MG	29547-00-0	Neat	100mg
Monuron	N-12497-100MG	150-68-5	Neat	100mg
MPMC Solution	S-13274A1-1ML	2425-10-7	100 µg/mL in Acetonitrile	1mL
