11th January, 2021

## Post Brexit Statement

As many are aware, the 1st January 2021 saw the UK officially left the EU customs union and single market.

Prior to this Greyhound Chromatography has spent considerable time focussing on and evaluating information from the government, suppliers and courier companies to ensure that we have put all the measures in place to minimise any disruption to our clients going forward.

In this regard we have :

- Ensured our staff are trained and able to undertake any differences to the customs infrastructure.
- Worked tirelessly to allow continuity to our supply chain.
- As a registered EORI operator, we continue to work with recognised freight forwarders and hauliers to minimise any issues that arise from customs clearance.
- Ensured adequate cash flow for VAT and additional inventory.
- Maintained sufficient levels of stock to meet our ongoing customer's demands.
- Continued to be aware of our employees nationalities to ensure after Brexit all are employed legally and their rights understood.

Whilst there have been many challenges to reach this point we are confident that as a valued client you will not see any disruption to the swift and professional service you have become used to.

We look ahead to forging even stronger business relationships with existing and new clients.

PAUL MASSIE

MANAGING DIRECTOR
